

“We have received such a tremendous outpouring of support from family, friends and some amazing people we’ve met only on CarePages. I’m inspired by this whole experience to give back to others.”

– Sarah

What is a CarePage?

It is a patient’s personal web page, created by a patient **or** a family member to facilitate communication during a hospitalization and long after discharge if desired. Patients or family can post messages to the page about a patient’s progress or condition. People visiting the page can post return messages that can be viewed by the patient or family.

CarePages help you:

- Receive support from friends and family - Visitors to your CarePage send you messages of encouragement, giving hope and strength even in the most difficult situations.
- Update them at the same time without repeated phone calls - Your CarePage keeps everyone in the loop. You spend less time on the phone.
- Control the flow of information - You share news at a time that’s right for you. Friends and family call less often since they’re automatically e-mailed when you post a new update.
- Keep in touch before, during, and after hospitalization or treatment - you control the expiration date. Your CarePage works for you as long as you want it to.
- CarePages are private and fully secure - CarePages are password protected **and** comply with all patient privacy regulations. All information that is posted **and** who is allowed to access a CarePage is controlled **only** by the patient and/or the family and it is completely secure. At no time does St. Joseph Healthcare divulge or provide any patient information for the purposes of this service.

“It cheered me up so much to know I was in others’ thoughts and prayers. Friends come in and out of our lives, and they were all brought together to me at a critical time in my life.”

-Jean

Are you or a loved one facing a health challenge?

CarePages can help.

St. Joseph Healthcare is pleased to provide CarePages websites as a free benefit to our patients and their loved ones and friends.

St. Joseph Hospital –
Your Doctors • Your Technology • Your Choice
www.stjoeshealing.org

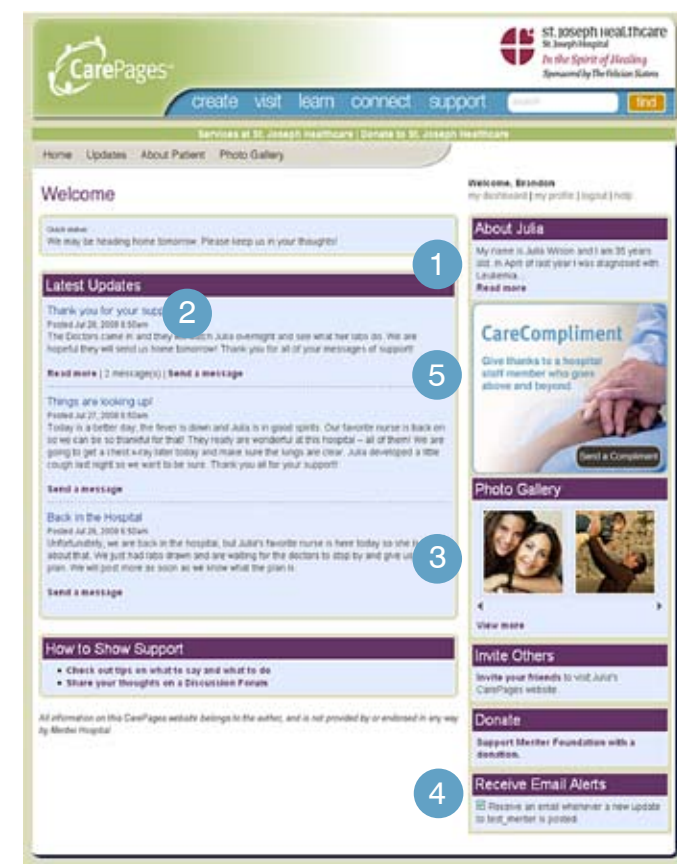

Through free, personalized CarePages websites, our patients and their families can become CarePages members who can relate their stories, post photos, and update friends and family instantly. In turn, people who care in the nationwide CarePages online community can send messages of support and encouragement. Our mission is simple: to ensure that no one goes through a health challenge alone.

You are in Control

You or a family member can open your website to the entire CarePages support community, **or** set it up to simply share information, messages and encouragement among family, friends and invited guests **only**. It’s totally up to you!

Get started Today!

To create a CarePages website, visit www.stjoeshealing.org, click the CarePages icon, then click on the “Create a CarePages website” link at the top of the page.

A CarePages website features:

- 1 **Your Personal Profile**
Share a summary of your story
- 2 **Updates**
Update everyone at once about your progress
- 3 **Photo Gallery**
Post photos to share with others
- 4 **E-mail Alerts**
Invite others to receive your latest updates
- 5 **CareCompliment**
Recognize staff members of St. Joseph Healthcare who go above and beyond
